

# DEDICATE IPAD FOR HOME CONTROL

## Why dedicate iPad with IPOINT at home?

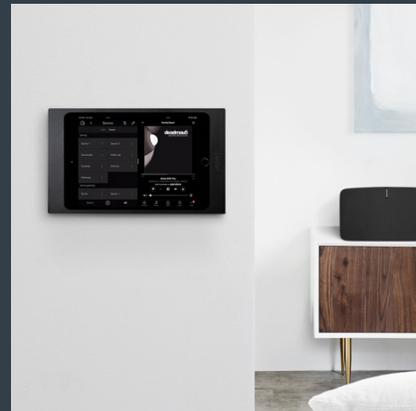

1. The universal smart device and OS the world understands and loves.
2. Best mobile control solution.
3. With multi-app support, you can create an experience that cannot be achieved on control system touch panels.
4. More than 1.2 million available apps, including those from every control system on the market.
5. Flexible placement and usability with the right IPOINT hardware for anywhere within our outside your home.

## IPOINT APPLICATIONS AT HOME

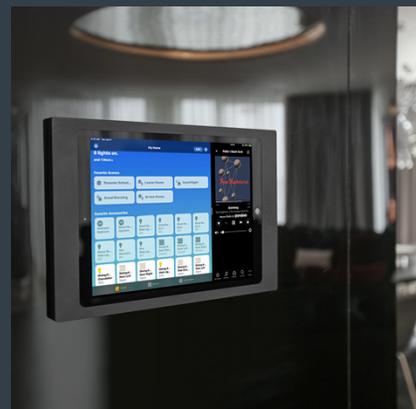

### DEDICATED CONTROL SYSTEM

iPad is the only removable touch panel. IPOINT enables the best removable iPad control experience with wireless charging, effortless magnetic mounting, and refined aesthetics that blend in with the design of your space.

### CONTROL + SUB SYSTEM

- Use iPad as the key touch screen across your entire home to standardize a multi-app UI, instead of control system touch panels. Use Removable and Stationary IPOINT products to enable this.
- Take advantage of the rich user interface of dedicated iOS apps along side your control system app
- Enable instant access to control apps with Custom dock and app multi-tasking

### MULTI-APP CONTROL

- Use iPad to handle multiple sub-systems without a central control system
- Run multiple apps side by side
- Enable instant access to control apps with custom dock and app multi-tasking
